FRANKFURT / MAIN

HALL 3.1

Hall floor	Asphalt with supply channels maximum load 15 (kN/sqm)
Suspensions from the hall ceiling	Yes Suspension point with 5 kN load per point (for vertical load only)
Building height (stand size up to 30 sqm) Western bordering area Southern bordering area	min. 3.50 m – 4.00 m
Building height (stand size over 30 sqm) Western bordering area Southern bordering area Eastern bordering area	min. 3.50 m – 5.40 m min. 3.50 m – 5.00 m min. 3.50 m – 6.00 m
Illumination	The general hall lighting is reduced. Therefore, it is necessary for the exhibitors to install an own lighting system at their booth.
Daylight	Yes
Stand design	These stand construction requirements should guarantee a high quality presentation of all stands in hall 3.1.
Stand construction	Stands should be as open and transparent as possible on all aisle sides (at least 70%). The basic construction height is 3.50 m. Above this height, it is necessary to ensure that the rear sides of walls facing neighbouring stands are smooth and generally of a neutral colour (e. g. white or light grey).
