

## HALL 12.0

|   |   |
|---|---|
| Hall floor                                | Asphalt with service ducts  |
| Suspensions from the hall ceiling         | Yes – according to arrangement  |
| Building height (stand size up to 30 sqm) | 4.00 m  |
| Building height (stand size over 30 sqm)  | 8.00 m  |
| Illumination                              | 300 Lux dimmable  |
| Daylight                                  | None  |
| Stand design                              | The stand construction should guarantee a professional presentation of all stands in the hall.  |
| Stand construction                        | Stands should be as open and transparent as possible on all aisle sides (at least 70%). The basic construction height is 2.50 m. Above this height, it is necessary to ensure that the rear sides of walls facing neighbouring stands are smooth and generally of a neutral colour (e. g. white or light grey). |
